

WHY US?

What makes us different is our ability to constantly upgrade our management and quality control systems to best suit our clients. Having been in this business for over 20 years has given us a wealth of experience. Our vertically integrated plant helps us closely scrutinize each part of the manufacturing process. Other manufacturers use sub-contractors thereby compromising on quality. Our prompt response constantly astonishes our clients. We are able to provide fast delivery of goods because of our large manufacturing capacity and enterprise resource planning systems.

PP / HDPE
Woven Products

GUJARAT CRAFT
INDUSTRIES LTD

PP / HDPE Woven Products

PROFILE

Gujarat Craft Industries Ltd (GCIL) is a public limited company listed on the Bombay Stock Exchange. We are a vertically integrated, leading manufacturer of PP/ HDPE woven products. Our diverse product line includes PE Tarpaulin, Plastic Sheeting, PP /HDPE Woven Fabric, Woven Sacks, HDPE Geo membrane, Vermi compost beds and Fumigation Covers. We have been in this business for over 20 years.

Our state-of-the-art manufacturing plant is located in Santej in the state of Gujarat, India. We maintain stringent quality control measures and hence we have been awarded the ISO 9001:2008 certification. We comply with all local labour laws and maintain a strict zero tolerance policy on child labour.

Our good quality matched with the right price and customer service has made us forge strong relationship with our esteemed clients.

QUALITY ASSURANCE

Certified by ISO 9001:2008, GCIL is an one of the prominent manufacturers and exporters with a vast range of products. To maintain excellent quality, we have devised systems to check quality at every step of the production process right from the tape till the making of the sack and the tarpaulin. We believe that by maintaining stringent quality control measures at every step, the number of defects will be minimized. The final product goes through a rigorous test to ensure it meets the clients requirements in terms of colour, strength (tear and puncture resistance) and resistance against adverse weather conditions.

We believe that there is always scope of improvement when it comes to quality which is why we constantly upgrade our quality control measures to best serve our customers.

PRODUCT PORTFOLIO

We are one of the largest manufacturers and exporters of PP/HDPE coated woven products.

Our product line includes -

- ▶ PP / HDPE Woven Sack
- ▶ PE Tarpaulin
- ▶ Plastic Sheeting as per UNHCR, ICRC and UNICEF specifications

APPLICATIONS

PP/ HDPE Woven Sacks are used to make-

- ▶ Cement bags
- ▶ Fertilizer bags
- ▶ Food grains bags like rice, wheat, sugar
- ▶ Chemical bags
- ▶ Flower bags

PE Tarpaulin

- ▶ Used to cover road transport vehicles like trucks, matadors, bullock carts and trailers
- ▶ Used to cover boats, ferries, swimming pools, shops and houses.
- ▶ Very suitable for outdoor camping, and to cover shamianas at all festive occasions.
- ▶ Can be used as monsoon sheds.
- ▶ Used to cover fruits, vegetables, poultry grains and other household products.
- ▶ Used in green houses and horticulture.
- ▶ Used as temporary shelter during disasters.

CLIENT SATISFACTION

Our relentless drive to meet and possibly exceed our client's requirements has helped us grow tremendously over the last 20 years.

We have a diverse mix of clients both in India and overseas. To best suit their needs, we suggest the right quality of products to serve their purpose. In the past we have exported our products to the Middle East, Africa, Europe and Americas.

INFRASTRUCTURE

We have a well designed and sophisticated manufacturing facility with an installed capacity of 8,400 MT per annum which is equipped with the latest machinery from India and overseas. We constantly upgrade our machinery to stay abreast with the latest technology. Our vertically integrated plant helps us closely monitor every stop of the manufacturing process. Rigorous training programs are conducted with our skilled workers to help them understand the best operations procedures to help us maintain quality.

TEAM

We have a highly motivated and qualified team of some who help maintain quality and optimize the manufacturing process. They have gained vast industry experience as well as technical knowledge. Their knowledge base continues to grow because of our constant training programs.

Our team comprises of:

- ▶ Technicians and Engineers
- ▶ Design staff
- ▶ Quality Control staff
- ▶ General Management staff
- ▶ Sales and Marketing executives
- ▶ IT staff
- ▶ Accounting and Finance staff
- ▶ Skilled
